Dean,

Yes, I was aware of Bluestone, the DES contracts are nationally managed and novation/name changes are very slow in coming. Ex. 4 CBI

I assume START could help with your special account funding! We have availability with the dedicated team at this time. If you would need to open a specialized service task order you would need to go through all the steps. The contract expires in June of this year, but there will be a follow-on contract.

I have spoken to Gary and apprised him of the information that affects USACE options, he believes are in a waiting pattern, he will check in with Scott to see if anything changed since he was out for the last week.

Thanks Maggie, Several high profile public meetings this week; so a bit overloaded. Also, note Avatar doesn't exist anymore, it was absorbed by Bluestone.

Any chance Weston START can provide some services? Weston is a sub to Bluestone, and basically has a dedicated person on site.

Dean,

Here are the actual responses plus a summary chart that I put together which gives you summary of COI information as well as team subcontractors for the vendors. Ex. 4 CBI

Ex. 4 CBI

Ex. 4 CBI

I have also indicated if the firms are large or small businesses.

Call me if you want to discuss, please keep this information close and do not share with others at this time.

I will contact Gary, this info will limit some of the USACE's short term additional ideas.
